

Laird Plastics Government Line Card

Laird Plastics is the leading independent plastics distribution, manufacturing and recycling solution provider with over 40 locations across the United States. For more than 30 years Laird has specialized in comprehensive supply chain coordination, supplying a complete range of semi-finished and finished plastic products. Laird Plastics partners with many of the leading manufacturers by channeling their products to key markets; construction, medical, food and beverage, transportation, graphics and OEMs. Laird's Government Sales Division is staffed by leading plastics industry experts and former federal government procurement specialists to ensure that your agency's needs are met according to specifications and on schedule.
